Roanoke, Virginia 24018-0798

THOMAS C. GATES  
COUNTY ADMINISTRATOR

TEL: (540) 772.2004  
FAX: (540) 561.2884

March 20, 2015

Dear Property Owner(s):

According to the preliminary maps provided by Mountain Valley Pipeline, your property is located along the proposed pipeline route or a proposed alternative route. Roanoke County wants to make you aware of several resources that may be useful to you.

On March 10<sup>th</sup>, the Roanoke County Board of Supervisors appointed a Pipeline Advisory Committee (list of members enclosed). The Committee will:

- Serve as an information conduit to / from citizens and County staff for information regarding the pipeline project;
- Assist in the review of Draft Environmental Impact Statement (DEIS) materials and make recommendations for comments back to FERC (Federal Energy Regulatory Commission);
- Advise the Board on specific actions that the County may wish to pursue relative to the project including its status as a potential "Intervener";
- Make recommendations for route modifications or other technical changes to the proposed project; and
- If the proposed project moves forward within Roanoke County, assist in ensuring permit compliance during the construction process.

Meetings of this Committee are open to the public and I would encourage you to attend these meetings. The next scheduled meeting of the Pipeline Advisory Committee is **April 6<sup>th</sup> at 12:00 p.m. (noon)** at the South County Library Auditorium, 6303 Merriman Road.

In addition to the Pipeline Advisory Committee, the County has placed relevant information regarding the Mountain Valley Pipeline on its website [www.roanokecountyva.gov](http://www.roanokecountyva.gov). To view this information, just click on the Mountain Valley Pipeline icon from the County's home page.
