North County House Fire Causes Extensive Damage

November 7, 2008, 4:45 p.m. (ROANOKE COUNTY) -- Fire Investigators have started to dig through the burned debris from a fire that occurred in a North County home earlier this afternoon.

The fire had already burned through the roof when firefighters arrived. Flames were so hot they melted the vinyl siding of the detached garage located behind the home. The flames also melted the siding of the house next door and caused damage to its electrical supply wires.

Roanoke County Fire and Rescue Department is committed to providing quality fire and emergency medical services to the citizens and visitors of Roanoke County, Virginia.
