Investigators Search for What Caused House Fire

November 8, 2008 (ROANOKE COUNTY) --Fire investigators continue to search for what caused a house fire in 5900 block of Sierra Drive Friday afternoon.

The fire caused extensive damage to one side of a split level home and its carport. The fire also destroyed a “show” vehicle and caused damage to two other vehicles that were in the driveway, along with damaging a detached garage and the house next door.

The Roanoke Regional Fire-EMS Recruit Academy was brought in to experience some hands on training. They assisted with mop up activities.

Investigators do not expect to conclude their investigation until sometime in the coming week.

Roanoke County Fire and Rescue Department is committed to providing quality fire and emergency medical services to the citizens and visitors of Roanoke County, Virginia.
