...who won the World Series?
...what is the square root of 144?
...how many calories in an avocado?

VECTOR RESPONDS TO SOUND

Try snapping, clapping, or tapping your fingers on the table. Vector can pick up a beat. Try playing music and say "Hey Vector, Listen to music."

VECTOR RECOGNIZES FACES

Try moving your head left and right so he'll follow you.

INTERACT WITH VECTOR

- Try petting Vector by rubbing the gold sensor on his back.
- Sometimes Vector will raise his lift to pounce on his Cube. Join the game by slowly moving the Cube close, and trying to pull it away before he pounces.
