

# Business Community Input Meetings for New CTE Center

## We're Training Your Future Workforce!

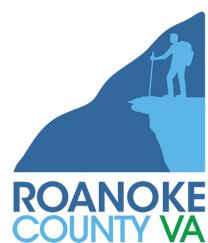

Your workforce is our concern! The new Career & Technical Education (CTE) Center will train your future workforce, so we're asking for your input on CTE needs in Roanoke County.

This new CTE Center located at 6251 Peters Creek Rd will replace the existing CTE facility that is housed at the Burton Center for Arts & Technology (BCAT). CTE provides career-readiness experience and hands-on training that produces high-quality employees across industries. There will be two meetings to receive public input for the new CTE center:

**North County**  
**Wednesday, August 17 at 6 PM**  
RCPS Central Office Gymnasium  
5937 Cove Road, Roanoke

**South County**  
**Wednesday, August 24 at 6 PM**  
South County Library Auditorium  
6303 Merriman Road, Roanoke

The two meetings will each include a presentation at 6 PM on the current curriculum offerings at BCAT and an update on the new facility. Following the presentation, the meetings will be an open house format for business leaders to provide their input on workforce training needs in the Roanoke Valley.
